JUST ADD WATER

Nutrient Range

Featuring exclusive ingredients

BASE NUTRIENTS

SAMURAI
— COCO —

A&B formulation coco nutrient that is literally light years ahead of all others

SAMURAI
— TERRA —

Highly refined mineral feed for soil grown plants

SAMURAI
— HYDRO —

Balanced high grade hydroponic nutrition to support all stages of growth

STARTING PRODUCTS

START

Maximise plant establishment and root development

- Encourages the movement of auxins from the leaf tip to the rooting point
- Accelerates germination and encourages faster root striking in cuttings

KATANA
— ROOTS —

Giving your roots the cutting edge required for explosive growth

- Creates explosive root growth in all types of propagation media
- Leads to massively increased performance and ultimately better yields

BOOSTING ADDITIVES

ZENZYM

Media recycling powerhouse with a superior mixture of enzymes

- A natural enzymatic formula that allows the reuse of media through enzymes breaking down left behind bacteria
- Stimulates extra root growth
- Rapidly breaks down microscopic dead root mass and releases locked up nutrients from dead matter back to the plant

CALMAG

Improving nutrient uptake and translocation of nutrients

- Highly refined calcium and magnesium source for plant
- Increases higher Potassium and Phosphorus uptake and use
- Facilitates many key plant functions including the production of Chlorophyll

SILICON

Protects against attack from disease and pests whilst also strengthening the very structure of the plant

- Creates significantly enhanced cell wall strength that provides the basis for strong healthy development and maximum environmental resistance
- Increase resistance to things like heat stress, pest invasion, the likelihood of rot or mildew issues

SUMO
BOOST

Heavyweight bio-stimulant without equal, champion to all yield boosters*

- Contains a phyto-hormone shown to stimulate various flowering enhancing functions
- Stimulates secondary metabolite production and essential oil production in plants

SUMO ACTIVE
BOOST

Heavyweight bio-stimulant without equal, champion to all yield boosters (enhanced stability)

- All the same benefits as Sumo Boost but with enhanced stability for use in active hydro systems
- Plant efficiency is maximised whilst quality, aroma and taste are improved via enhanced essential oil production

PK WARRIOR
9/18

Unique Phosphorus and Potassium ratio to outflank all other PK additives

- Stimulates the movement of calcium to the fruit and flowers leading to improvements in post-harvest quality
- Increases secondary metabolite production such as plant resins and aroma compounds

GEISHA
FOLIAR

Additive designed to enhance and initiate flowering receptors

- Supplied ready to use. No mixing or pH adjustment required
- Increases water uptake and plant metabolism to enhance yield and quality
- Stimulates Increased flowering sites by up to 5%

* Only available in the United Kingdom

FINISHING PRODUCTS

DRAGON
— FORCE —

Last minute yield improvement Release the dragon

- Speeds up the ripening on the plant
- Stimulates the movement of calcium to the fruit and flowers leading to improvements in post-harvest quality
- Increases secondary metabolite production such as plant resins and aroma compounds

100% PGR FREE, 100% SAFE. At Shogun Fertilisers, we never use Paclobutrazol, Daminozide, or any other banned plant growth regulators in our products.
